Engine and One Car.**

**MANY PERSONS  
WERE DROWNED**

**Catawba River Where  
Accident Happened is  
Very Deep and All Cars  
Were Submerged--No  
Warning Given.**

Charlotte, N. C., Sept. 9.—A frightful railroad wreck occurred here this morning, when a train of five day coaches, a sleeping car, a baggage car and an engine plunged through the trestle into the Catawba river. An engine and a car following the train were also precipitated into the river, the engine of the second train receiving no warning. The accident is thought to have been caused by the breaking of the trestle. Many lives are reported lost but all means of communication are down and no details of the accident have been received.

The wreck is on the Seaboard Air Line. A wrecking train with physicians has been sent to the scene. The river at this point is deep and it is thought that the passengers lost their lives by drowning as most of the coaches were submerged.

The second engine with the car was running at full speed and plunged down upon the wrecked train below.

### SAW SIEGE BEGUN.

Story of Englishman Returning Home From Port Arthur.

New York, Sept. 9.—On his way to England, after having been held for two months in beleaguered Port Arthur, J. V. C. Brewster, son of Lloyd Brewster of the tea firm of Brewster & Co. of London, has sailed on the Savole for Havre. Young Mr. Brewster was seen on the boat before she left her dock and told an interesting story of his experiences in the far east while the Japanese squadron was blockading Port Arthur and the army landing and preparing to lay siege to it. He said: "I arrived at Port Arthur in December, before hostilities had begun, and went about the city snapping photographs of places of interest in the event of a fight, preparations for which were going on on all sides of me. When the Russians found me and I was hustled off before one of their commanding officers, whose name I could not begin to spell for you, I produced my letters from the British consul at Hongkong and did not have very much trouble getting out. My camera, however, was confiscated, as it proved that I had taken photographs of some of the fortifications.

"Previous to the opening of hostilities I had no trouble in going in and out of Port Arthur and sent out a good deal of information, but no pictures, to the paper I was acting for. I found that the Russians treated me very well, and I saw everything that was to be seen then. Later, however, when I returned in January and it was certain that there was going to be trouble, I was not allowed to go about so freely. Sentries had been stationed to all entrances to the fortifications, where thousands of Chinese coolies were at work building up the fighting walls. Even Colonel Ravaenoff could not take me within the sentry lines, and so I did not see much of the forts, though we could see the heavy siege guns."

### PROBABLY FATAL ACCIDENT.

Rutland Man and Son Seriously Wounded Yesterday Afternoon.

Rutland, Sept. 9.—Word was received in this city last night from Pittsfield village, 16 miles distant, of the probable fatal injury of John M. Kellogg, treasurer of the Herald and Globe association of this city. Mr. Kellogg was hurt in a runaway accident and up to a late hour had not recovered consciousness. His 12-year-old son, Newton, who was with him and was badly injured also, had been restored to consciousness this evening but is yet too dazed to tell how the accident occurred.

The man and his son were found lying in the road five miles from Pittsfield village at four o'clock and a few rods away was the horse, turned completely around in the shafts, thrown to the ground and the rig a complete wreck.

The injured man and boy were taken to Pittsfield village but it was several hours before medical aid could be secured, the village doctor being absent.

The physicians say that several of Mr. Kellogg's ribs are broken and that he is injured internally. Grave fears are entertained that he cannot recover.

The place where the accident occurred is a steep and mountainous piece of road which, taken with the fact that Mr. Kellogg has but one arm, probably explains his failure to control the horse.

### BROKE BED FELLOW'S NOSE.

Burlington Man Raped Another With A Walking Stick.

Burlington, Sept. 8.—A case somewhat out of the ordinary was tried in city court today. Henry Arcand was the man on trial and the nominal charge against him was breach of the peace. As a matter of fact he was found guilty of breaking a man's nose by dealing him a crushing blow over the face with a heavy walking stick. The owner of the damaged nose is Moses Forest and he appeared in city court this morning still wearing his damaged olfactory organ which now possesses a curve or twin its contour which nature never intended should be there. He also wore a pair of blue glasses to protect his eyes which were also damaged by the terrific rap he received. He was discharged from the hospital only yesterday.

Hagan's hand was well nigh blown off while he was experimenting with a railroad torpedo at Montpelier. ## ORDERED BACK TO WORK

**Great Butchers' Strike  
Has Collapsed**

### ACTION LAST EVENING

Executive Board of United Butchers' Workmen Gave Order, Followed By Others.

Chicago, Sept. 9.—The action of the executive board of the United Butchers' Workmen last night in ordering its members back to work was followed by the strike committees of the other trades involved taking the same action. The strike which had been on for two months, was officially declared off by President Michael J. Donnelly of the Amalgamated Meat Cutters and Butcher Workmen of America. Donnelly received permission from the executive committee. When the strikers were notified tonight that it had been decided to end the strike they announced that they would give places as far as possible to the same skilled men but it was stated at the same time that many of these men would be unable to secure their old places as in many cases the work was being performed in a satisfactory manner by men who had been secured since the commencement of the strike. It is expected that the majority of the unskilled men will be unable to secure their places again. It was a question of a wage scale for this class of men that brought about the strike, the packers refusing to sign an agreement with any class other than skilled workmen.

During the strike approximately 43,000 persons have been involved, and the struggle is estimated to have cost the men about \$3,000,000 in wages as against an estimated loss of \$7,500,000 to the packers in loss of business and increased expenses. The greatest number of men idle in Chicago during the strike was 26,000 and the total in the country outside of this city is estimated to be about the same.

The original cause of the strike was a demand by the butchers' union that the packers pay to the unskilled workmen 18 1/2 cents an hour. The packers refused to sign an agreement, but offered to arbitrate the question. This was accepted, the strikers agreeing to return to work pending the decision of the arbitrators. The men, however, were dissatisfied with the manner in which they were being put to work and declared that they would not return unless all of the men were given their old places in one day. The packers declaring that this was physically impossible, the men went on strike for the second time.

The men now return to work under the conditions that existed before the strike.

### THE RUTLAND SITUATION.

Strikers Declare They Are Just as Firm as Ever.

Rutland, Sept. 8.—The marble strikers who are on strike still continue to congregate in large numbers at the Young Men's Catholic union hall, which they have occupied since the strike began. The men meet at this hall daily to discuss the situation. The men deny emphatically that they have any intention of returning to work and declare they are just as determined as when the strike began.

Three marble workers from Philadelphia who came to this city yesterday to work for the Vermont Marble company were stranded here today. They refused to go to work because of the strike and had no money to pay their railroad fare back to their homes. The men say that they were engaged by a Vermont Marble company agent to come here and work for \$3.50 per day. They understood that the strike was off. When they reached Proctor they learned of the strike after many inquiries and they would not go to work. The local strikers took them in charge today.

### BRIDE FIVE TIMES.

Rutland Woman Wedded to Mendon Man at the age of 76.

Rutland, Sept. 8.—Mrs. Louise Bate-man of this city was recently married to Brooks Bennett of Mendon. This is Mrs. Bennett's fifth marriage. She is now at the age of 76 years. The groom is about the same age. The couple will live at Mendon on Mr. Bennett's farm.

### 500,000 Patrons Annually and the Why of It.

There is just as much character in moving pictures as in good personality. You cannot hide it. Its evidence of sterling worth sticks out in every programme offered by Lyman H. Howe, who will present his entirely new collection of scenes in Barre Opera House on Sept. 13. Mr. Howe, acting on the conviction that indifferently projected pictures with no set purpose are held in low esteem by the public, can always be relied on to present pictures that are forceful, purposeful and at the highest tension of perfection; and still Mr. Howe's pictures retain that indefinable charm and "something" that pervades the entire program, and holds his spectators spellbound from beginning to end.

### FRASER'S STAR PITCHING.

Goddard Twirler Doing Fine Work for Richmond.

"Jack" Fraser, Goddard's star twirler, has been pitching for the Richmond town team this summer and capped a brilliant record Wednesday by shutting out the strong Morrisville team, by the score of three to nothing, notwithstanding that Morrisville had Campbell, the Plattsburg pitcher, in the box and Brennan, Burlington's catcher behind the bat. Fraser fanned Campbell twice.

On the team with Fraser was Mark Berry, captain of the Goddard team last spring, and Ford Flagg, a former athletic star at the same school. Up to a week ago the Richmond team had won every game played, which was eleven.

### NASH NEXT TO THE BEST.

"Hub" Second only to Paddy Duff in Batting.

Next to Paddy Duff of Rutland, "Hub" Nash of the Barre-Montpelier base ball team was the heaviest hitter in the Northern league. In 28 games Nash smacked the ball at a .358 clip. Duff's average was .372. These averages are for those players who participated in any considerable number of games. There were only six of them in the 300 class. Capt. Morgan of the Barre-Montpelier team was just outside, having .294. Poland had .259; Dorman .223; O'Hara .214; iFleming .203; Hennelly .185; Apperious .184; Sheldon .183. The other local players were far down the list.

### TRAVIS DEFEATED.

Short Hills, N. J., Sept. 8.—Many surprises have occurred during the progress of the national golf championship tournament, which began last Tuesday on the links of the Baltusrol Golf club, but the most sensational event came this afternoon when Walter J. Travis of Garden City was defeated by George A. Ormlston of Pittsburgh. Both men played steadily but each had bad periods.

## "GOV." BELL WAS THERE

**Surprised The Reception  
Goers At Randolph**

### HE CONGRATULATED THEM

Four Hundred Randolph Citizens Assembled In Honor of Representative-Elect Morse.

Randolph, Sept. 9.—The four hundred people who attended the reception in honor of representative-elect Dana H. Morse last evening were given a decided surprise when Governor-elect Charles J. Bell of Walden was introduced to them. It was "Gov." Bell's first public appearance since his election on Tuesday, and he was greeted with heavy applause by the crowd at last evening's reception. He congratulated the Republicans of the state on the handsome vote which they cast and complimented the people of Randolph with electing so competent a man as Mr. Morse.

The reception was a very pleasant affair. The Green Mountain band rendered selections during the evening. After congratulations had been extended to Representative-elect Morse refreshments were passed around consisting of sandwiches, cake and coffee. Then Editor L. B. Johnson sprung the surprise of the evening when he presented Governor-elect Bell. After Mr. Bell's brief remarks the following spoke a few minutes each: V. I. Spear, M. M. Wilson, H. D. Gilbert, J. C. Demmon, H. W. Vail, N. L. Boyden, and finally the representative-elect Dana H. Morse.

### THE CORRECTED VOTE.

### TO PREVENT ACCIDENTS.

Plan to Abolish Grade Crossings at Tabor's.

The state railroad commissioners are preparing to abolish some grade crossings at Tabor's, between this city and Montpelier. They visited the place yesterday with the members of the Montpelier city council, and they went into session at the state house in the afternoon.

The matter was called to the attention of the commissioners by the officials of the Montpelier and Wells River railroad. One road runs from Barre and the other from Montpelier in the direction of East Montpelier and across the tracks of the Montpelier and Wells River road and Central Vermont only a very few feet apart, making four crossings, two on each road. The scheme was to make one road and only two crossings.

### LOCAL MAILS WERE LATE.

And Distribution of Christmas Goods Was Premature.

The mails into this city were badly out of plumb yesterday afternoon and last evening owing to the freight wreck down the main line of the Central Vermont at Royalton. The accident was caused by the breaking of a car wheel on a car near the middle of the train. Four cars loaded chiefly with Christmas goods were thrown about and demolished but no one was injured. A carload of horses was just ahead of the cars which were smashed but none of the animals was injured. Telegraph poles were snapped and the service was greatly crippled for hours. Nine hours after the accident the road had been cleared for travel again.
